Contents of Volume 1

Number 1. JULY 1987

FJ Editorials

Thinking about communicating. *B. R. Bloom* 1
Retrospect and prospect. *W. J. Whelan* 1

FJ Tribute

Fritz Lipmann: in memoriam. *C. de Duve* 3

FJ Reviews

State-dependent aspects of regulatory physiology. *R. Lydic* 6
Opioid peptide biosynthesis: enzymatic selectivity and regulatory mechanisms. *E. Costa, I. Mocchetti, S. Supattapone, and S. H. Snyder* 16
NMR spectroscopy as an investigative technique in physiology. *B. M. Hitzig, J. W. Prichard, H. L. Kantor, W. R. Ellington, J. S. Ingwall, C. T. Burt, S. I. Helman, and J. Koutcher* 22

FJ Research Communications

Aging effects of vitamin C on a human lens protein produced in vitro. *P. Russell, D. Garland, J. S. Zigler, Jr., S. O. Meakin, L.-C. Tsui, and M. L. Breitman* 32
Modification of hepatic proteins in rats exposed to high oxygen concentration. *P. E. Starke, C. N. Oliver, and E. R. Stadtman* 36
Group C Niemann-Pick disease: faulty regulation of low-density lipoprotein uptake and cholesterol storage in cultured fibroblasts. *P. G. Pentchev, M. E. Comly, H. S. Kruth, T. Tokoro, J. Butler, J. Sokol, M. Filling-Katz, J. M. Quirk, D. C. Marshall, S. Patel, M. T. Vanier, and R. O. Brady* 40
Phenothiazine binding by a homolog of calpactin, the pp60^{src} tyrosine kinase substrate. *K. L. Carraway III, Y. Liu, D. Puett, K. L. Carraway, and C. A. Carothers Carraway* 46
ATP-binding properties of P glycoprotein from multidrug-resistant KB cells. *M. M. Cornwell, T. Tsuruo, M. M. Gottesman, and I. Pastan* 51
Phospholipid activation of the insulin receptor kinase: regulation by phosphatidylinositol. *L. J. Sweet, D. T. Dudley, J. E. Pessin, and A. A. Spector* 55
Properties and function of caltrin, the calcium-transport inhibitor of bull seminal plasma. *J. T. San Agustin, P. Hughes, and H. A. Lardy* 60

Number 2. AUGUST 1987

FJ Reviews

Inflammation and the mechanism of action of anti-inflammatory drugs. *J. Vane and R. Botting* 89
Molecular biology in physiology. *S. Chien and J. J. Gargus* 97
The unfolding story of T cell receptor γ. *D. M. Pardoll, A. M. Kruisbeek, B. J. Fowlkes, J. E. Coligan, and R. H. Schwartz* 103
Calcium-dependent proteases: an enzyme system active at cellular membranes? *R. L. Mellgren* 110

FJ Research Communications

Inhibition of induced acute lung edema by a novel protein kinase C inhibitor. *D. Struhar and R. J. Harbeck* 116
Enhanced cAMP accumulation after termination of cholinergic action in the heart. *J. Linden* 119
Proliferation of a human epidermal tumor cell line stimulated by urokinase. *J. C. Kirchheimer, J. Wojta, G. Christ, and B. R. Binder* . . 125
Increased survival of skin flaps by scavengers of superoxide radical. *L. Huang, C. T. Privalle, D. Serafin, and B. Klitzman* 129
Z band dynamics as a function of sarcomere length and the contractile state of muscle. *M. A. Goldstein, L. H. Michael, J. P. Schroeter, and R. L. Sass* 133
Characterization and kinetic studies of deglycosylated dopamine β-hydroxylase. *J. Hamos, P. R. Desai, and J. J. Villafranca* 143

FJ Editorial

Strengthening biomedical science *and* institutions. *B. R. Bloom* . . . 175

FJ Reviews

Protein kinase C in the regulation of smooth muscle contraction. *H. Rasmussen, Y. Takuwa, and S. Park* 177
Leukotrienes in health and disease. *G. Feuerstein and J. M. Hallenbeck* 186
Sympathetic control of cerebral arteries: specialization in receptor type, reserve, affinity, and distribution. *J. A. Bevan, J. Duckworth, I. Laher, M. A. Oriowo, G. A. McPherson, and R. D. Bevan* 193
Immune regulation and the eye: a dangerous compromise. *J. W. Streilein* 199

FJ Tribute

Harland Wood—active at 80. *D. A. Goldthwait* . . . 259

FJ Reviews

Receptors for γ-aminobutyric acid and voltage-dependent chloride channels as targets for drugs and toxicants. *A. T. Eldefrawi and M. E. Eldefrawi* . . . 262

The glomerular mesangial cell: an expanding role for a specialized pericyte. *D. Schlondorff* . . . 272

The peripheral-type benzodiazepine receptor: a protein of mitochondrial outer membranes utilizing porphyrins as endogenous ligands. *S. H. Snyder, A. Verma, and R. R. Trifiletti* . . . 282

FJ Research Communications

β-Adrenergic receptor desensitization of wild-type but not cyc lymphoma cells unmasked by submillimolar Mg^{2+}. *R. B. Clark, J. Friedman, J. A. Johnson, and M. W. Kunkel* . . . 289

Inhibition of packing of acetylcholine into quanta by ammonium. *W. Van der Kloot* . . . 298

Net glucuronidation in different rat strains: importance of microsomal β-glucuronidase. *C. Dwivedi, A. A. Downie, and T. E. Webb* . . . 303

Pressure-dependent vasoactive effects of histamine in the coronary circulation. *G. F. Merrill, Y. H. Kang, H. M. Wei, and H. Fisher* . . . 308

Mitogenesis in fetal rat bone cells simultaneously exposed to type β transforming growth factor and other growth regulators. *M. Centrella, T. L. McCarthy, and E. Canalis* . . . 312

Conversion of phosphatidylglycerol to lyso(bis)phosphatidic acid by alveolar macrophages. *M. Waite, V. Roddick, T. Thornburg, L. King, and F. Cochran* . . . 318

Number 5. NOVEMBER 1987

FJ Reviews

Molecular determinants of protein half-lives in eukaryotic cells. *J. F. Dice* . . . 349

Oxidants and human disease: some new concepts. *B. Halliwell* . . . 358

Fitting curves to data using nonlinear regression: a practical and nonmathematical review. *H. J. Motulsky and L. A. Ransnas* . . . 365

Specific occurrence of selenium in enzymes and amino acid tRNAs. *T. C. Stadtman* . . . 375

FJ Research Communications

Expression of rat mRNA coding for hormone-stimulated adenylate cyclase in *Xenopus* oocytes. *A. A. Smith, T. Brooker, and G. Brooker* . . . 380

Catalytic properties of inositol trisphosphate kinase: activation by Ca^{2+} and calmodulin. *S. H. Ryu, S. Y. Lee, K.-Y. Lee, and S. G. Rhee* . . . 388

Effect of dietary boron on mineral, estrogen, and testosterone metabolism in postmenopausal women. *F. H. Nielsen, C. D. Hunt, L. M. Mullen, and J. R. Hunt* . . . 394

Electric stimulation of protein and DNA synthesis in human fibroblasts. *G. J. Bourguignon and L. Y. W. Bourguignon* . . . 398

Platelet-activating factor: an endogenous mediator for bowel necrosis in endotoxemia. *W. Hsueh, F. González-Crussi, and J. L. Arroyave* . . . 403

FJ Reviews

Fibroblast growth factors. *K. A. Thomas* . . . 434

Free radical tissue damage: protective role of antioxidant nutrients. *L. J. Machlin and A. Bendich* . . . 441

Glutamate and related acidic excitatory neurotransmitters: from basic science to clinical application. *M. B. Robinson and J. T. Coyle* . . . 446

Interleukin 4/B cell stimulatory factor 1: one lymphokine, many functions. *W. E. Paul* . . . 456

Trafficking of lysosomal enzymes. *S. Kornfeld* . . . 462

FJ Research Communications

Ethanol: an enhancer of major histocompatibility complex antigen expression. *L. J. Parent, R. Ehrlich, L. Matis, and D. S. Singer* 469

Reduced cell death in skin flaps in rats treated with difluoromethylornithine. *J. Gelman, J. V. Bartolome, S. Jenkins, D. Serafin, S. M. Schanberg, and B. Klitzman* 474

Gender-specific action of thyrotropin-releasing hormone in the mammalian spinal cord. *S. B. Deshpande, N. S. Pilotte, and J. E. Warnick* 478

Histamine-induced changes in coronary circulation and myocardial oxygen consumption: influences of histamine receptor antagonists. *Y. H. Kang, H. M. Wei, H. Fisher, and G. F. Merrill* 483
